"CHASE'S ALABAMA CROWN"

TO THE TRADE

This is the twelfth issue of Chase's Red Book. It has made for us many warm friends and valuable customers. We thank you. There are Nurserymen and Dealers—wholesale buyers—well acquainted with this little Red Book—who are not yet regular purchasers of "Chase's Alabama Grown." We wish this issue to start correspondence that will put YOU on our list of regular customers.

Weather conditions the past winter were good; no damaging frosts or excessive rainfall. The Spring and Summer growth has been steady and strong. Our stock is UNIFORM and GOOD.

We solicit your orders with the assurance that they will be handled in keeping with the three good points:

Yours very truly,

ALABAMA NURSERY COMPANY,

Huntsville, Alabama Sept. 1st, 1904.

References

For the convenience of those who do not know us, we refer to any of the Banks or business houses of Huntsville; or to the Commercial Agencies, or any of the leading nursery firms of the United States.

Fall 1904

September 1st, 1904

Wholesale Price List

of the

Alabama Nursery Company

(Incorporated)

Huntsville, Alabama

We grow Nursery Stock to sell at WHOLESALE. We do not intend to send our lists to planters or to parties not entitled to them. We hear complaints of Nurserymen sending trade lists to parties not entitled to them. If our lists go to such parties it is an error which we will THANK YOU TO CORRECT by advising us of parties name and address.

All Telegrams are Transmitted by Telephone

FOR YOUR INFORMATION

We would suggest that parties with whom we have never had dealings, send us their orders in time for us to communicate with their references before they want stock shipped. We cannot accept orders from such parties without cash in advance, satisfactory security or references, and we mention this to avoid delay on rush orders during the packing season.

Each order is handled separately. After lifting, the trees are sent immediately to our large cellar where they are GRADED AND BUNCHED UNDER COVER, exposure is reduced to a minimum and customers may depend upon receiving stock fresh, sound and in perfect condition.

Telegraphic orders usually filled same day they are received. Use Nurseryman's Telegraphic Code.

It is not our ambition to be a low-priced house, but we strive to grow stock that is FIRST-CLASS, TO GRADE ACCURATELY, to have the handling and packing as good AS THE BEST. We expect to sell on the market. We believe this is the way to hold trade.

Ten, hundred and thousand rates. We make three rates to apply as follows: On orders for 50 trees and over (up to 300) WHEN NOT LESS THAN TEN TREES OF A VARIETY, the hundred rate will be charged. On orders for 300 trees and over WHEN NOT LESS THAN TEN TREES OF A VARIETY, the Thousand rate will be charged. On all orders of less than 50 trees the Ten rate will be charged.

Guarantee of Genuineness

We exercise the greatest care to keep our varieties PURE and TRUE to name, and we hold ourselves in readiness at all times to replace, on proper proof, all stock that may prove otherwise, or refund the amount paid; but it is mutually agreed between the purchaser and ourselves that we shall not at any time be liable for any amount greater than the original price of the goods.

Packing and Packing Cases

Our packing season begins October 1st, and continues through the winter until March 1st.

The cost of cases seven and one-half to nine feet long, thirty inches, is \$2.50; twenty-four inches, \$2.00; eighteen inches, \$1.50. Bales, 25 cents to 75 cents. No charge for drayage.

Bales cost a higher rate of freight; so, as far as possible, we ship in cases.

Shipping

Please state how goods must be sent; whether by freight or express; also route. If no directions are given, we will ship as we think best serves customer's interests without assuming responsibility. The risk and cost of transportation belong to purchaser.

Grades

We grade carefully; in some cases by caliper, others by height. When by both, the caliper must govern. The lower number is included, and the higher number excluded. For instance, in a grade from four to five feet, four feet trees are included, but five feet go into the next grade. If plump five feet trees are wanted, the order must be for five to six feet. When possible, we prefer to send samples to prospective customers.

Caution

We accept all orders upon the condition that they shall be void should any injury befall the stock, from frost, hail, storm, fire or other causes over which we have no control.

Claims

All claims must be made immediately on receipt of goods, or they will not be allowed.

Prices

The quotations in this list are for the WHOLESALE TRADE ONLY, and are subject to change without notice.

TIME—If possible, give us a few days notice before you want stock shipped. We will ship your goods on the day specified if possible.

CIPHER—For convenience in Telegraphing, a Cipher word in *Italic* type is given for each grade.

When you buy twine on reels you pay for the weight of the reel. When the twine is put up in coils you get net weight. You can run an old broom or hoe handle through the coil, nail on a cross piece, cut the lashing, put the 40 cents in your pocket and go ahead.

SAN JOSE SCALE AND FUMIGATION

Our Nurseries are free from San Jose Scale, and it has not been found in this locality. We are prepared to fumigate with Hydrocyanic Acid Gas and cheerfully do so upon request.

Common sense box closer or clamp, to close your boxes so that the cover can be nailed on.

A piece of hard wood (1 ½ inches thick by 2 ¼ inches wide, and 5 inches long) for handle, a strong trace chain, have the blacksmith hammer out two pieces of steel and you have got a box clamp (adjustable to all sizes of boxes) such as the great nurserymen of Rochester have used for years.

A good thing. No patent. Make it yourself. Our supply catalogue will show you how. We would tell you here but the picture is not ready. If you are interested ask for our New Supply Catalogue.

2 to 3 feet, light	<i>Preach</i>	20 00
18 to 24 inches, heavy	<i>Precise</i>	20 00
18 to 24 inches, light	<i>Press</i>	17 50
12 to 18 inches, heavy	<i>Prevent</i>	15 00
8 to 18 inches, light	<i>Pride</i>	10 00

The two year plants were cut back to ground last Spring and all wood is this seasons growth, smooth and handsome.

The plants described as 2 year heavy, carry 6 to 10 branches from the ground, the light plants carry from 3 to 6.

The 18 to 24 inch, and 12 to 18 inch heavy plants carry from 4 to 6 branches from the ground; the light plants in these grades from 2 to 4 branches. All single stems go into the smallest grade which we recommend for Transplanting only.

The best pruning shears make a clean cut, do not bruise or grind. Cuttings with clean, sound ends are more apt to grow. Our New Supply Catalogue will tell you about it, ask if interested.

NURSERYMEN'S SUPPLIES

Orders for Supplies—Knives, Box Straps, Lining Paper, Grafting Thread, Mule Skin Mittens, Labels, Raffia, Burlap, Needles, Twines and Spades are shipped same day received. Orders for printed matter usually filled second or third day owing to amount of work necessary. Always send plain "copy" for printer.

Budding Knives

WOSTENHOLM'S I X I, IVORY TIP—The best budding knife we know of.

Price, each, postpaid	\$ 0.75
Per dozen	8.00
Per dozen, postpaid	8.25

C. A. G. BUDDER—We have a demand for a pocket budding knife at a lower price than the I X I, and now carry in stock a razor steel blade, all wood (oocoa) handle, no metal bolsters, strong enough for budding but not strong enough for an all purpose knife, the end of the handle is made thin forming a wedge for raising the bark.

Price, each, postpaid	\$ 0.35
Per dozen	3.85
Per dozen, postpaid	4.00

STATIONARY BLADE—Made for BUDDING but not as convenient for the pocket as the others. Blades made from razor steel.

Price, each, postpaid	\$ 0.25
Per dozen	2.75
Per dozen, postpaid	2.90

Pruning Knives

Stationary handle like cut. Full length 8 inches, length of blade 3 inches.

Price, each, postpaid	\$ 0.30
Per dozen	2.75
Per dozen, postpaid	3.20

Grafting Knives

Single clip blade, cocoa handle, pocket edition.

Price, each, postpaid	\$ 0.25
Per dozen	2.75
Per dozen, postpaid	3.00

Steel Box Straps

One inch wide, nine inches long, thin soft steel, strong enough to hold the heaviest box. You can drive an ordinary nail through it without punching. Packed in kegs and takes same freight rate as nails, or sixth class, ready for immediate shipment.

About 2800 pieces in 100 pounds.

50 pound kegs, price per keg	\$ 3.00
100 pound kegs, price per keg	5.50

Box Lining Paper

Helps keep out frost and heat, protects contents of box from drying winds. It is water proof, by this, we mean that it will resist a good deal of moisture, but there is a limit.

This paper is put up in rolls 40 inches wide, about 100 pounds in a roll. Ten lineal feet weigh one pound, or one roll will line twenty-seven full size cases. We call it a good paper. You can buy paper for less money, but we think you will find this cheaper in the end.

Price, per pound	\$ 0.05
------------------------	---------

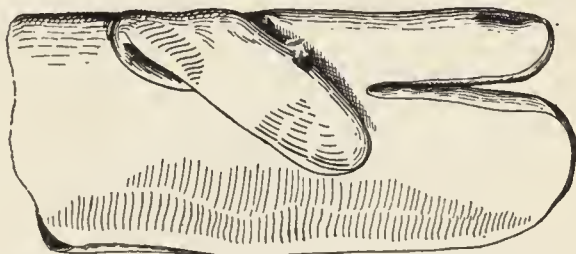

Grafting Thread

NET WEIGHT

Grafting Thread put up in balls, three ply, firmly twisted and loosely wound so that it can be soaked in boiling wax and used from the ball.

Price, per pound, not waxed	\$ 0.25
Same waxed ready for use, per pound	0.35

Mule Skin Gloves or Mittens

A Leather Mitten with separate sheath for forefinger, the other three fingers in one sheath. Not cumbersome, the best thing we know of for handling trees or rose bushes. We have found them a great help and for this reason offer them. Order a sample dozen and you will always want them during packing season. Made from Mule Skin, nearly as durable as Buck Skin, at one-fourth the cost. Alabama mules are tough. Single pair by mail, postpaid...\$ 0.35

Per dozen, by Freight or Express..... 2.75

Labels

Plain, 3½ inches, wired packed 1000 in package.

Per 1000, 75 cts. Per 5000, \$3.50 Per 10000, \$6.50

Raffia

Best grade. Fresh stock. Per pound.....\$ 0.14

100 pounds, per pound..... .12

Burlap

Just good weight, ordinary burlap, 8 ounces to the yard, as cheap and more satisfactory than second hand burlap or bags.

40 inches wide, per yard.....\$ 0.05

Full piece of about 200 yards, per yard..... .04¾

Needles for Sewing Burlap

3½ and 5 inch, per dozen.....\$ 0.25

Twines (NET WEIGHT)

Medium grade sail twine for sewing burlap, put up in skeins. Per pound.....\$ 0.25

Ten-ply tube cord (breaking strength 127 lbs.) for small express bales, in coils of about 45 lbs. Per pound \$ 0.09

Two-ply fine sisal cord (breaking strength 170 lbs.) for heavy express bales, in coils of about 50 lbs. Per pound \$ 0.11

Four-ply wool twine for tying trees or bundles, 300 feet to the pound. Per pound.....\$ 0.09

In bales of 100 pounds, per pound..... .08

Spades

D handle, double strap, tapered nursery spade, size of blade, $12\frac{3}{4} \times 7\frac{1}{2} \times 5\frac{1}{2}$; weight 9 lbs. Each.....\$ 1.75

Per dozen 20.00

This is the best all purpose nursery spade. Ames make. It is strapped full length of handle both back and front with steel straps, making it a first-class digging spade. It is sure to give satisfaction.

OFFICE SUPPLIES

Order Books

Your name and address printed, 100 orders to book, best quality heavy glazed paper, latest form (sample sheet free for the asking.) Not less than 500.

Per 500, 5 books.....\$1.75

Per 1000, 10 books..... 2.50

Always give plain copy of firm name and address so that no mistake in printing will occur.

Delivery Books

Bound in paper cover, ruled showing name of customer, P. O. Address, amount of order, how settled, etc., printed in copying ink. Postpaid.

For 24 accounts, per dozen.....\$0.50

For 72 accounts, per dozen..... .75

For 120 accounts, per dozen..... .85

For 168 accounts, per dozen..... 1.00

Half dozen at dozen rates.

Shipping Tags

Two sizes always in stock. The quality is good, reinforced eyelets, tough and heavy. Printed to order, ALWAYS SEND COPY. All tags ARE STRUNG READY FOR USE.

Size $2\frac{1}{2} \times 4\frac{3}{4}$ in. printed one side, per 500.....\$1.35

Per 1000..... 1.90

Printed two sides, per 500..... 1.65

Per 1000..... 2.40

Size $2\frac{7}{8} \times 5\frac{3}{4}$ inch printed one side, per 500..... 1.60

Per 1000..... 2.15

Printed two sides, per 500..... 2.00

Per 1000..... 2.85

Always send copy showing how tags are to be printed.

Packing Material

Sphagnum moss in bales, each bale completely wrapped with 8 oz. burlap to prevent loss in shipping. Per 100 lbs. \$1.60

Fine clean Excelsior (no dust,) absolutely dry, compressed in wire bound bound bales, will ship without loss, many nurserymen claim it will go nearly as far as equal weight of moss. *We know* it is a first-class packing material, bales weigh about 60 pounds each. Per 100 lbs. ----- \$1.00

FUMIGATION AND CHEMICALS.

The laws of many states require the fumigation of nursery stock with Hydrocyanic acid gas. The necessary equipment consists of an air tight chamber (box or house) a glazed earthenware vessel, a glass measure graduated to ounces (a plain tumbler, mark the sides with a file) and a set of accurate scales, the necessary chemicals are Cyanide of Potash (98 per cent.) and Sulphuric Acid (specific gravity 1.83.) Care should be taken to secure the 98 per cent. Cyanide otherwise an insufficient amount of gas would be generated and the fumigation prove ineffective. ("Commercial" Cyanide contains an average of 26.45 per cent. Cyanide of Potash.) Cyanide of Potash must be kept in an air tight package and so packed will keep indefinitely. it is a deadly poison and should not be left where it will fall into the hands of children or careless persons and should never be handled by a person having open sores, cuts or bruises upon his hands. The gas is colorless and if inhaled in quantity is fatal, smaller amounts induce headache or dizziness.

The best commercial grade of Sulphuric Acid should be procured. This acid should be kept in a glass or earthenware vessel tightly stopped with a glass or lead stopper.

The chief requisite for a fumigation house is that it should be air tight or gas proof.

The standard formula for fumigating each 100 cubic feet of space contained in the fumigating house is as follows:

- 1 ounce Cyanide of Potash (98 per cent.)
- 2 fluid ounces Sulphuric Acid.
- 4 fluid ounces of Water.

The glazed earthenware vessel should be somewhat larger than is necessary to hold the chemicals, a one or two gallon jar is perhaps the best container.

Fumigating. The trees, as dug and brought from the field should be placed in the fumigating house, care being taken to see that they are free from any considerable quantities of mud or dirt, the trees should not be fumigated when they are wet as it has been shown that in this condition they are likely to be injured by the gas. When the compartment is full of stock, close all openings except the door, place the jar on the floor near the middle of the room, pour in the required amount of Water and then slowly pour in the acid. The Cyanide previously weighed and enclosed in a tight paper bag is now dropped into the jar and the operator leaves *immediately* and closes the door *tight*. The steps in this operation **SHOULD NEVER BE VARIED**. If water is poured into the acid a violent action takes place and may be the cause of injury to the operator. Enclosing the cyanide in a paper bag makes it convenient and safe to handle and retards the generation of the gas for a moment after being dropped, thus allowing time to leave the room and close the door securely.

Keep the room closed for forty minutes, at the end of which time the door and window should be thrown open, care being taken to avoid the outward rush of gas. After fifteen minutes of airing the room may be safely entered and the stock removed, being now ready for packing or heeling in. After fumigation the contents of the jar should be buried.

Cyanide of Potash (98 per cent) in air tight tin packages containing NET WEIGHTS:

1 pound package, per pound-----	\$.35
5 pound package, per pound-----	.31
10 pound package, per pound-----	.30

Cyanide of Potash is excluded from the mails.

Alabama State Board of Horticulture

OFFICIAL CERTIFICATE

To Whom it May Concern:

No. 1

This Is to Certify, That in accordance with an act of the Legislature approved March 5, 1903, I have on the 5 6 8 days of August, made an examination of the nurseries of The Alabama Nursery Company, at Huntsville, and that I found the stock in these nurseries apparently free from the San Jose Scale and all other insects and diseases of a seriously injurious nature.

This certificate is to cover only stock grown in the above named nurseries, and becomes invalid after July 15, 1905.

{ S E A L }

Auburn, Ala., Aug. 8, 1904.

P. I. Mackintosh

State Horticulturist
